SUMMARY

Experienced Software Developer with over 6 years of expertise in web, mobile, and cloud-platform development. Highly skilled in C#, .NET, and Microsoft Azure, with a strong focus on building secure REST APIs and integrating cloud solutions. Hands-on experience developing Microsoft Sentinel Data Connectors, creating ARM templates, and using KQL for analytics. Broad IT background encompassing the full Microsoft 365 ecosystem, AWS, server management, and cross-platform mobile development (Flutter, React Native).

PROFESSIONAL EXPERIENCE

Five Stones Network Services

June 2023 - Present

Software Developer

- Design and build scalable REST APIs using C# and .NET to integrate external data sources securely.
- Develop and implement custom Data Connectors for Microsoft Sentinel to enhance security monitoring and data integration.
- Create and deploy ARM Templates to automate the provisioning of Azure resources and Sentinel connectors.
- Utilize KQL (Kusto Query Language) for querying, analyzing, and reporting on security data.
- Develop internal applications and automate workflows using the Microsoft 365 ecosystem, including Power Automate, Power BI, Intune, and Microsoft Graph API.
- Manage and optimize cloud solutions on Azure, ensuring high availability, security, and performance.

GDG Toronto

Sep 2021 - Apr 2022

Software Developer

- Led the development of a secure, cloud-hosted chatbot application deployed on Azure App Service and Azure Functions.
 - Built and maintained backend services using .NET and Node.js, focusing on scalability and secure authentication mechanisms.
 - Collaborated with cross-functional teams to troubleshoot, optimize, and maintain cloud-based applications.
 - Assisted with server administration and network management to ensure smooth deployment pipelines.
-

KEY SKILLS

- Microsoft Azure (Certified), Microsoft Sentinel, Data Connectors, KQL, ARM Templates, AWS, GCP.
 - C#, .NET Core, REST APIs, Node.js, Python, Java.
 - Flutter, React Native, Swift, SwiftUI, JavaScript, React, Angular.
 - Microsoft 365, Power Automate, Power BI, Intune, SharePoint, Graph API.
 - Server Management, Network Administration, Docker, Kubernetes, CI/CD, Terraform.
 - SQL Server, Azure SQL, Azure Cosmos DB, MySQL, MongoDB.
-

EDUCATION & CERTIFICATIONS

Azure Developer Associate Certification

Microsoft

Software Engineering Technology

McMaster University

Computer Programming and Analysis

GPA: 3.73 (93%), Dean's Award

George Brown College

PROJECTS

Expense Tracker Application

- Developed a full-stack expense management system featuring a cross-platform Flutter frontend for a seamless mobile experience.
- Built a robust and secure .NET web backend to handle REST API requests, user authentication, and real-time data synchronization.

Scavenger Hunt (Mobile App)

- Developed a real-world interactive mobile application for iOS, achieving over 1,000 downloads on the App Store.
- Engineered a scalable .NET REST API backend to manage user progress, location data, and application logic.
